+91-9446285258

Bangalore, India

Senior IAM Security Analyst with 6+ years of experience in Identity & Access Management (IAM), specializing in Access Provisioning & Deprovisioning, SailPoint IdentityIQ (IIQ) operations, deployments, and enterprise IAM support. Experienced in supporting SIT/PAT/PROD environments, IIQ task monitoring, Linux/Tomcat administration, deployment activities, and troubleshooting identity governance platforms. Skilled across SailPoint IIQ, SailPoint Identity Security Cloud (ISC), Active Directory, Azure AD, Google Workspace, O365 Administration, and IAM operational support. Certified SailPoint Identity Security Professional (ISC), SailPoint Identity Security Leader, and Microsoft SC-900.

Work Experience

IAM Senior Security Analyst - IGA (SailPoint IdentityIQ)

Nov 2025 - Present

Cyderes | Bangalore, Karnataka

- Support SailPoint IdentityIQ operations across PROD, SIT & PAT environments for a major banking client.
- Perform daily platform health checks, monitoring aggregations, identity refreshes, provisioning transactions, auto-revocations, scheduled tasks, and environment stability.
- Execute SailPoint IIQ deployments including WAR generation, containing SailPoint IIQ objects including workflows, rules, forms, task definitions, application configurations, and XML-based changes, validations and post-deployment verification.
- Troubleshoot aggregation failures, identity refresh issues, synchronization/provisioning errors, and operational incidents using ServiceNow, Jira, logs, and RCA analysis.
- Provide environmental and operational support for Development and QA teams, facilitating issue investigation, testing support, environment troubleshooting, and deployment coordination within the SailPoint IIQ ecosystem.
- Manage orphan/uncorrelated identity mapping using SQL queries, CSV processing, and SailPoint batch execution for account correlation activities.
- Participate in Agile sprint-based operational support activities, managing deployment requests, operational tasks, and environment support processes using Jira workflows, GitHub and Confluence documentation.
- Utilize Linux administration and Tomcat service management for SailPoint IIQ operational support, including service restarts, CPU and memory utilization analysis, log monitoring, and environment health validation and other resource utilization checks.
- Maintain and enhance operational runbooks, SOPs, deployment procedures, and technical documentation to improve support consistency, audit readiness, and knowledge transfer across teams.

IAM Senior Security Analyst

Apr 2025 - Oct 2025

Cyderes | Bangalore, Karnataka

- Lead the Identity & Access Management (IAM) team, managing ticket queues and prioritization while mentoring team members for accurate resolution.
- Handled user account provisioning, onboarding & offboarding, mailbox, distribution lists and security group management across AD, Google Workspace and SailPoint IIQ via Service Requests.
- Proactively resolved issues, cleared technical doubts, and fostered cross-functional collaboration to ensure secure, compliant, and efficient access management across the organization.
- Manage daily ticket queues, assigning tasks based on priority and team expertise.
- Provide hands-on guidance and mentorship to ensure timely and accurate ticket resolution.
- Foster cross-functional collaboration to support secure and compliant access management across the organization.

IAM Security Analyst

Nov 2022 - Mar 2025

Cyderes | Bangalore, Karnataka

- User Access Management (UAM) / Privileged Access Management (PAM)
- Handled user account provisioning, onboarding & offboarding, mailbox, distribution lists and security group management across AD, Google Workspace and SailPoint IIQ via Service Requests.
- Managed access requests, password resets, role assignments, and application access while ensuring SLA adherence through ServiceNow.
- Manage user permissions or roles, IAM, conditional Access policies and RBAC and use appropriate tools (e.g., RBAC Matrix) to determine role, appropriate level of access to applications, and other requirements.
- Managed admin rights, service IDs, and passwords, while coordinating IAM support with cross-functional teams to ensure secure, compliant access.

Associate Professional Service Delivery Coordinator

Oct 2021 - Nov 2022

DXC Technology (formerly Hewlett-Packard) | Bangalore, Karnataka

- User Access Management (UAM) / User Account Administration
